ACE KALAM FORUM FOR INNOVATION -AKFI

In this modern era of development a vibrant knowledge Network has to be created across the different sectors to achieve success. For achieving this goal we have inaugurated an innovation forum called ACE KALAM FORUM FOR INNOVATION-AKFI. The club was inaugurated by Dr Pankaj Priyadarshi, Head of Aerodynamic wing at ISRO on 9th may, 2016.

The club will promote inclusive innovations by linking itself into creativity. Primarily, the club will aim at four functions:

1. Search
2. Spread
3. Sense
4. Celebrate.

The students can take up value addition in local ideas, test some of the innovations, modify the design or cover the whole value chain of Innovation including student based entrepreneurship. The club will also extend its efforts and include activities like skill development and other complementary activities. An industry-institute cell may be made up with in the club so that better awareness about different industries can be brought within the students.

Objectives

1. To explore innovative ideas, methodologies and technologies.
2. To organize seminar, conferences, workshops, exhibitions relating to innovations.
3. To provide opportunities for students to be engaged in innovative activities through creativity and technical workshops.
4. To provide a platform for students, teachers and other members of society to showcase their skills by creating new innovations and products.

DEVELOPER WEEKEND ON WEB DESIGNING

ACE Kalam Forum For Innovation(AKFI), ACE College of Engineering, Trivandrum, in association with **StudyOwl** conducted a **Developer Weekend** on May 13th and 14th, 2017, on the ever prevailing topic of Web Development. Developer Weekend (www.developerweekend.org) is community driven twoday event. The motto of Developer Weekend is to focus on new and trending technologies and to spend the weekend learning and mastering those skills. Developer Weekends give students the opportunity to learn from, interact with and gain insights from industry experts of various technical backgrounds.

This Developer Weekend in ACE is organized by S6 Mechanical students Mr. Manikantan R Nair & Mr. Sarath Sankar

Mr. Prashanth Reddy from StudyOwl (www.studyowl.in) started the session in the most interactive way, introducing participants to the world of Web Development, and guiding them step by step, turn by turn into the intricacies. The topics covered by the end of first day included CSS, the style sheet language used for describing the presentation of a document written in a markup language.

Second day session saw Mr. Prashanth open the show with bootstrap, the opensource frontend web framework for designing websites and web applications. Post bootstrap, the participants were introduced to the super popular and highly useful JavaScript, and guided through the ways of writing meaningful, useful code in JS, along with all the tips and tricks that the language has to offer.

Sunday's tutorial session culminated into a 2 hour Hackathon, which was conducted with 2 people in each team. The top 2 teams among the 15 competing ones were chosen as winners of the Hackathon, and awarded with certificates from StudyOwl. The event ended with the great inspirational talks by Mr Azeem Hafiz(Mechanical HOD) and ECE Hod Mr.Rafeeq., At the End of the event StudyOwl(www.studyowl.in) team selected 6 students from college and started the foundation for Developer Weekend Bootcamp coding club in the college and these students will be provided with free technical support for 1 year from the company., lot of students discussing their knowledge and insights, and bombarding the organizers with questions to clear their doubts. Together with StudyOwl, through Developer Weekend, the participants explored the world of Web Development with a resolve to excel in the field.

RC GLIDER WORKSHOP

"Venture" was an idea put forward by Aeronautical Engineering Students in the year 2018 and successfully continuing its venture by learning, designing, and flying miniaturized aircrafts and drones. The aim of "Venture" is to encourage students to undertake projects where they design, fabricate, and fly miniaturized air borne vehicles. Workshops and air shows are held every year to bring together aero modelling and aviation enthusiasts sharing a unique passion of flying and applying theoretical knowledge to practical

On 26th September 2019, our team 'Venture' under the guidance of Assistant Prof.Prem Kishore sir, conducted our first ever workshop on RC Glider in the forenoon section in the college.

The workshop started with lectures given by the student coordinators of the team Venture followed by a quiz competition for the first year students. Respected principal, HOD's of various departments, faculty members of aeronautical department gave their esteemed presence to start the workshop Principal sir congratulated all the team members and the department in his welcome speech.

Prof.Irshad Ahmed sir,HOD of Aeronautical department addressed the gathering. The lecturers where then started by the student coordinators one by one and after the lectures, there was a demonstration of the glider done by the team leader. The quiz competition was started after that.

Webinar On Digital Entrepreneurship

Innovators' Premier League is an initiative of Kerala Startup Mission (KSUM) that aims to bring awareness and sensitization of IEDC & its activities among students, building a competitive & entrepreneurial mindset among innovators, and create the pipeline of startups.

During IPL, students in the institution will compete with each other at the College level, followed by Regional level competitions under three major pillars – Innovation, Technology & Entrepreneurship. The league competition runs on a point system where institution and students can achieve points through conducting boot camps, workshops, startup generation etc. under various categories.

Webinar On Virtual Labs For Practical Courses

ACE College of Engineering has been selected as a nodal centre of the Virtual Labs initiative funded by the Ministry of Education (formerly MHRD), Government of India, under the National Mission on Education through Information and Communication Technology. It is envisaged as an e-learning platform for practice oriented subject areas in the same lines of NPTEL for classroom courses, aimed at facilitating learning of engineering and sciences through experimentation in a virtual environment at the preferred pace, place and period (time) of the learner.

An internal faculty training programme via online mode for all the faculty and academic staff of our college was conducted on May 25, 2022 at 2:30 pm under the initiative of NITK Surathkal.

The Nodal Centre Coordinator of ACE College of Engineering is Mr. Asif Shahkutty, Assistant Professor, Department of Electronics and Communication.
